

**Welcome to Timberland Regional Library.**

This is your library card number: **897322**. Use this number and the PIN you entered to login to the [library catalog](#), [download e-books](#), [take online courses](#), or access other [online services](#).

Download our **Mobile App** now to add your card number so you never lose it. Available for [Android](#) and [Apple iOS devices](#).

**[Upgrade your eCard for more services.](#)**

While your eCard allows you access to our digital services, you can also place up to 10 physical items on hold right now. When you are notified that they are ready for pickup, you can visit [your local library](#) to upgrade your card and check out your items.

- **Proof of identity is necessary to upgrade to a basic card.** This provides access to our in-branch materials in addition to our online services. This card level allows you to borrow up to 10 physical items and place holds on up to 10 more.
- **If you verify your address as well, you can upgrade to a regular card.** This card level increases the number of items borrowed and holds placed to 50 items at a time.

Although it is not necessary to have a physical library card, you may request one (with a new card number) at no charge when you upgrade. Parents may verify identity and address for minors.
